EDUCATION

NOV 2024 - APR 2026

CAMBRIDGE SPARK

- Level 4 Data Analyst Apprenticeship
- Distinction

2019 - 2022

UNIVERSITY OF THE WEST
OF ENGLAND

- Cyber / Computer Forensics & Counterterrorism
- Two years completed; degree not completed

SKILLS

- SQL, Power BI, Python
- Data modelling & ETL
- Forecasting & time-series analysis
- Data validation & quality
- Stakeholder reporting

PROFESSIONAL SUMMARY

Data Analyst with experience across SQL, Power BI, and Python, delivering end-to-end analytics from data extraction and modelling through to reporting, forecasting, and stakeholder insight. Experienced in improving data quality, automating workflows, and supporting operational decision-making.

PROFESSIONAL EXPERIENCE

United Response

SEP 2023 - PRESENT

Data Administrator / Data Analyst

- Extracted, analysed, and modelled data using SQL, Power BI, and Python to support organisational decision-making
- Built dashboards and reports that surfaced performance trends, KPIs, and operational insights
- Automated recurring reporting and data-validation tasks using Python, reducing manual effort
- Improved data quality by identifying inconsistencies, validating source data, and refining transformation logic
- Collaborated with stakeholders to translate reporting requirements into actionable analytics outputs
- Supported governance and compliance through validation checks and audit-ready processes

CGI

JAN 2023 - JUN 2023

Consultant

- Analysed technical issues across multiple systems using structured problem-solving techniques
- Identified patterns in recurring issues and contributed to process-improvement discussions

Sensée

FEB 2021 - DEC 2022

Consultant

- Handled complex, data-driven enquiries requiring accuracy, documentation, and attention to detail
- Applied analytical thinking to improve clarity and consistency in customer-facing information

Freelance

JAN 2022 - FEB 2022

Python Consultant (Contract)

- Analysed and optimised application code, identifying performance, data-handling, and security improvements
- Produced technical recommendations to improve efficiency and robustness of data workflows

University of the West of England

AUG 2020 - OCT 2020

Android Developer (Contract)

- Developed machine-learning-driven Android features, including real-time facial blurring
- Contributed to application architecture, documentation, and collaborative code-quality improvements

MAPFRE

AUG 2018 - APR 2019

Medical Assistant

- Managed sensitive case data for overseas medical incidents, ensuring accuracy and compliance
- Coordinated information between international hospitals, clinicians, and internal systems
- Communicated complex medical and logistical information clearly to stakeholders

Subfero

JAN 2018 - JUL 2018

Brand Ambassador / IT Support

- Provided Office 365 and Azure support, including mailbox migrations and user troubleshooting
- Maintained data accuracy during system changes and documented support outcomes

SELECTED PORTFOLIO PROJECTS

Power BI Finance Reporting (Zebra BI Replacement)

- End-to-end financial reporting solution using SQL, Power BI, and advanced DAX
- Multi-level KPIs, drill-throughs, and governance-ready reporting

Forecasting Enrolments & Withdrawals (Python)

- Time-series forecasting pipeline using ETS models and Pandas
- Automated model evaluation, back-testing, and Power BI integration
